Extension of validity of certification

Due to reasons directly related to the coronavirus outbreak, not all activities for your recertification audit could be completed prior to the expiration of your management system certificate.

Through a remote certification activity, DQS was able to gain evidence that the certified management system is still in place and effective.

Therefore, exceptionally, the original validity of the below mentioned certificate is hereby extended for 6 (six) months or on completion of the certification process, whichever is earlier.

Please note, upon completion of the certification process, a new certificate will be issued commencing from 3 (three) years from the expiry date of the original certificate.

The extension is subject to ongoing maintenance of the implemented management system. The performance of a regular audit is still required and will be carried out as soon as possible.

This letter is not valid after the extended expiration date below.
