OPTIONS & ACCESSORIES

The right choice of accessories can optimize and complete the communications experience

A Tait radio is not a solitary product, it supports a range of great accessories. We recommend tailoring each user’s experience to suit their industry and role. Select the battery that’s the right balance of weight versus shift-life. Select a carry accessory that makes the radio easier to wear, and keeps the radio protected and in good working order.

The right audio accessories, like speaker mics and ear-pieces, can make team communication much more effective. Optimizing audio performance means calls can be heard first time during normal operations and emergencies, keeping channels clear for other users.
Batteries

TP8000/9000 Portable Radio Batteries

Select the performance and capacity options that are right for your organization's needs.

GENERAL TAIT BATTERY FEATURES
- Premium quality Li-ion cells
- Over charge protection
- Over-current protection
- Thermal protection
- Over-discharge protection

BUILT TO EXCEED AND SURVIVE TAIT TOUGH AND MIL-STD810G DROP TESTS
- Strong attachment
- Rubberized corners

For use with: TP8100, TP9300, TP9400, TP9500, TP9600

Not for use with Intrinsically Safe or Non-Incendive radios.
Batteries

**TP3 Portable Radio Batteries**

For use with the TP3000 range only.

**Features**
- Chemistry: Lithium Ion
- Capacity: 2000mAh
- Built in over current protection, temperature sensing, charge contact isolation
- Up to two extra batteries can be supplied in each radio carton

**For use with:**
TP3000

*Not for use with Intrinsically Safe or Non-Incendive radios.*
### Chargers

#### TP9000 Desktop Chargers

Choose the appropriate plug pack for your region. These Desktop Chargers are available as either a Single Charger or a convenient 6-Way Multi Charger.

All TP9000 Series Desktop Chargers are compatible with:
- TP8100
- TP9300/TP9400
- TP9500/TP9600

Options for no mains cable, or bundled with a mains cable for the region of your choice.
- Charge up to six radios with batteries, or batteries only.
- For use with either Slimline 1880mAh or Performance 2400mAh battery.

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Chargers

Transportable Chargers

Rapid field-deployable communication is essential to emergency responders. Scalable communications equipment such as the Transportable Multi-charger extends your normal field of operation and enhances flexibility.

The TA3004 Transportable Multi-charger can be powered by 110-240VAC mains, a vehicle accessories socket or a stand-alone 10-30VDC power source, like a battery, making it extremely versatile.

The Transportable Multi-charger’s rugged pelican case with its lid up can charge a combination of portable radios and batteries at a time, both Slimline 1880 mAh Lithium Ion (Li-ion) or Performance 2400 mAh Li-ion batteries can be used.

Note: Charging can only be carried out with the lid open. The unit is not waterproof with the lid open.

All TP9000 Series Transportable Chargers Are Compatible With:
- TP8100
- TP9300/TP9400
- TP9500/9600

Features:
- Can charge a combination of up to six radios or batteries (either Slimline 1880mAH or Performance 2400mAH) simultaneously
- Easily deployed rugged 1520 Pelican case with aluminum internal chassis
- Can store up to six TP8000/9000 radios (with batteries and belt clips fitted), and six spare batteries
- Displays a red LED while battery is charging, green LED when battery is fully charged, and amber LED if there is a charging fault or error
- Standard IEC AC socket connected to an internal switch-mode power supply
- 110-250VAC input, fused and switched
- External DC power input, 10-30VDC at 13A
- DC power cord with a vehicle accessory plug to a 4-pin Amphenol plug, switched and fused
- DC power cord with crocodile clips to a 4-pin Amphenol plug for use on any 10-30VDC 13A power source
- Country-specific IEC AC power cords are available.

Size: L 182mm, W 124mm, H 58mm

Weight: approx. 12kg with 6 radios and 12 batteries fitted

Typical Charge Time: 1880mAH Li-ion 1.5-2hrs, 2400mAH Li-ion 2-2.5hrs

Maximum Charge Time: 1880mAH Li-ion 2.5hrs, 2400mAH Li-ion 3hrs

Aus/NZ Compliance only. Contact your Tait representative for availability and pricing in other regions

Not for use with Intrinsically Safe or Non-Incendive radios.
**Chargers**

**TP9000 Vehicle Chargers**

Our unique in-vehicle charger provides charging even in the toughest vehicle environments, ensuring batteries are optimally charged to keep users connected over long shifts. The vehicle charger can charge batteries connected to the radio, and also on their own.

This rugged in-vehicle radio charger securely holds the radio, exceeding crash-test requirements, minimizing in-vehicle hazards.

**THE TP9000 VEHICLE CHARGER IS COMPATIBLE WITH:**

- TP8100
- TP9300/TP9400
- TP9500/TP9600

**CHARGING SOLUTION FOR PORTABLE RADIOS**

Charging portable radios within a vehicle is a vital aspect of everyday operation. Unforeseen events require the flexibility to charge portables radios while on operation, so you are always prepared. The Vehicle Charger has been designed for tough conditions to assure reliable charging, and also keep the portable radio secure.

**EFFICIENT CHARGING**

The charger displays charging information consistent with the other Tait chargers. Battery faults, charging cycle and ready batteries are clearly indicated.

**SUITSABLE FOR MOUNTING IN VEHICLE**

This charger is supplied with a power cable, but no fasteners, and can be mounted in a variety of different ways, including installation against a vertical surface. When properly fitted, the charging radio is safe and secure.

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Chargers

TP9000 Vehicle Chargers (continued)

Our unique in-vehicle charger provides secure charging even with the roughest treatment, ensuring there is always a fresh battery available to keep users connected over long shifts.

This rugged in-vehicle charger is secure, even in crashes, to reduce in-vehicle hazards.

THE TP9000 VEHICLE CHARGER FOR BATTERIES IS COMPATIBLE WITH:
- T03-00011-AAAA Slimline Li-Ion 1880mAh battery
- T03-00011-CAAA Performance Li-Ion 2400mAh battery

SECURE CHARGING SOLUTION FOR SPARE BATTERIES

The ability to charge spare batteries during operation is vital. You never know when shifts will be extended due to unforeseen events, and having a fully charged extra battery ready provides peace of mind when in critical missions.

The Battery Only Vehicle Charger has been designed for tough conditions to assure continuous charging.

EFFICIENT CHARGING

The charger displays charging information consistent with other Tait chargers. Battery faults, charging cycle and ready batteries are clearly visible.

SUITABLE FOR MOUNTING IN VEHICLE

The battery charger is very simple to use with positive audible feedback of insertion. Two rubber studs help ensure robust attachment in a moving vehicle.

Four mounting screws are available for firm and reliable contact with the mounting surface. The battery is easily accessible for urgent need by pressing the top clip.

Not for use with Intrinsically Safe or Non-Incendive radios.
Chargers

TP3 Chargers

Desktop Chargers are available as a Single Charger that offers the flexibility to use the plug pack for the region of your choice, or a convenient 6-Way Multi Charger.

COMPATIBILITY

- TP3000

SINGLE CHARGER WITH PLUG PACK

- Triple LED Indication
- Temperature, voltage, battery type detection
- Over-charge timeout
- Multi-national plug pack - plugs for NorAm, UK, EU, ANZ, BR all supplied
- Plug pack rated at 12V, 2A

Not for use with Intrinsically Safe or Non-Incendive radios.

MULTI CHARGER (6-WAY)

- Specifically for TP3300 radios
- Supplied with a plug pack (6A, 12V), but spare plug packs are available
- IEC mains cables are sold separately to the 6-Way Charger

Not for use with Intrinsically Safe or Non-Incendive radios.
Carry Accessories

Carry Cases provide a range of options to provide:

- Extra protection for your radio, minimizing damage wear and tear and prolonging the life of your investment
- Choice of options personal comfort and ease of use when carrying and using your radio.

Tait radios are Built Tait Tough to take the knocks – the Tait Belt Clip, and Optional Belt Clip adapter provide:

- A low cost alternative to carry your radio
- Secure attachment, quick release, and improved RF coverage with the belt clip adaptor
- Full visibility of your radio, e.g. your high visibility color, blue for IS, custom labeling etc
- Full tactile and ergonomic access to the radio operation

Carry cases and belt clip adapters are very important tools for improving coverage by pushing the antenna farther from the body as the body can block or absorb signals.

(Note: belt clip & belt clip adaptor also applies to TP8000, TP9000, TP9461 and TP9361 IS radios)

### ATTACHMENT TYPE

<tbody>
<tr>
<td><strong>This adaptor provides secure, robust attachment of radio to your belt, allowing easy release for handheld operation. Avoiding interference with day-to-day tasks is critical for active staff.</strong></td>
<td></td>
</tr>
</tbody>
</table>
| • Unique, rugged accessory designed to last  
| • Allows the radio to securely swivel 15deg forwards and backwards from center, providing ergonomic but constrained movement for user comfort  
| • Provides low-cost, secure radio attachment  
| • Release mechanism allows for easy intentional release, but makes it extremely difficult for the radio to be unintentionally removed – perfect for public safety and security usage  
| • Improves radio range by angling the antenna away from the user's body |
| **REQUIRES: TPA-CA-201** |
### Carry Accessories

#### Carry Cases – TP9000 series

**HEAVY DUTY LEATHER**
- Keep your hands free and portable radio safe with a durable heavy leather case.
- Resilient and robust, the Heavy Duty Leather cases withstand the toughest conditions, allowing you to focus on the job.

(Note: TP81, TP93/4, and TP95/6 are different heights, so different carry cases apply to each)

---

**CARRY CASE HEAVY DUTY LEATHER D-STUD BELT LOOP**

- TP9310 0 Key Variant
- TP9300/9400 4 Key Variant
- TP9300/9400 4Key / 16 Key Variant
- TP9500/9600 4 Key / 16 Key Variant

**Features:**
- Belt loop is approx 55mm
- D-Stud for secure flexible attachment and easy release

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**CARRY CASE HEAVY DUTY LEATHER SPRING CLIP**

- TP9310 0 Key Variant
- TP9300/9400 4 Key Variant
- TP9300/9400 4Key / 16 Key Variant
- TP9500/9600 4 Key / 16 Key Variant

**Features:**
- Spring clip is approx 45mm

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Carry Accessories

Carry Cases – TP9000 series

HEAVY DUTY LEATHER (CONTINUED)

- Increase your carry options by including a Belt Loop or Belt Loop D-Rings.
- Use D-Rings to attach Shoulder Strap.

(Note: TP81, TP93/4, and TP95/6 are different heights, so different carry cases apply to each)

</table>
Carry Accessories

Carry Case Accessories – TP9000 series

HEAVY DUTY LEATHER (CONTINUED)

- Enhance your carry options with a Shoulder Strap for the Heavy Duty Leather case.
- Battery Spacer creates a secure fit when using smaller batteries in a full size carry case.

**SHOULDER STRAP**

Shoulder Strap for Heavy Duty Leather Case  ▶ T03-00038-0034

**Features:**
- Durable leather strap.
- Secure clasps to attach to Heavy Duty Leather Case.

**For use with:**
- Heavy Duty Leather Belt Loop D-rings carry cases (T03-00038-00035, T03-00038-00036, T03-00038-00037)

**BATTERY SPACER**

Battery Spacer for Heavy Duty Leather Case ▶ T03-00038-0030

**Features:**
- Comes with Heavy Duty Leather Carry Cases – this allows them to be used with the Slimline (thin) battery.
- Not required when radios have the Performance (thick) battery.

**For use with:**
- All TP8000/9000 radios (except for IS models) in Heavy Duty Leather Carry Cases

*Not for use with Intrinsically Safe or Non-Incendive radios.*
**Carry Accessories**

**Carry Cases – TP9000 series**

**SOFT LEATHER**

- Maintain durability against damage with a slim and smooth line Soft Leather case.
- Robust case, yet comfortable to wear and use.

*(Note: TP81, TP93/4, and TP95/6 are different heights, so different carry cases apply to each)*

---

**Features:**

- Uses standard battery belt clip (TPA-CA-201) to hang the radio

*Note: Does not come with battery belt clip, this must be bought separately.*

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Carry Accessories

Carry Cases – TP9000 series

NYLON
- Soft yet durable, these slim, firm fitting cases minimize damage and wear and tear to your portable radio.
- Comfortable while using your radio.

(Note: TP81, TP93/4, and TP95/6 are different heights, so different carry cases apply to each)

**CARRY CASE NYLON D-STUD BELT LOOP**
- TP9310 0 Key Variant
- TP9300/9400 4 Key Variant
- TP9300/9400 4 Key / 16 Key Variant

AUDIO ACCESSORIES

The right audio accessories can help you do your job more safely and effectively

Whether your team operates in a particularly noisy environment, or has a need for covert communications, Tait offers a range of audio accessories to make sure voice calls get through loud and clear.
Audio Accessories for Tait Portables

Smart audio accessory selection plays an important role in worker safety and efficiency.

Tait portable radios share a common accessory connector, so audio accessories are generally compatible between models. Intrinsically Safe radios offer an extra level of electrical and thermal safety, so IS radios require specific accessories.

Tait recommends the use of Tait TDMA audio accessories with radios operating in TDMA modes. Tait TDMA audio accessories are tested to function in TDMA, and have “TDMA” molded in the radio connector. TDMA technology is used in DMR and P25 Phase 2. Visit [www.taitradioacademy.com](http://www.taitradioacademy.com) to learn more about TDMA technology.

### SELECTING THE APPROPRIATE AUDIO ACCESSORIES

#### NOISY ENVIRONMENT?
When there’s a lot of noise around you, one option is to just turn up the volume on your radio. This is not always practical, especially if the noise is intermittent or you’re moving between areas of differing noise. Earpieces or noise canceling headsets can help you hear better amid loud noises. Your team also needs to be able to hear you when you’re talking in a noisy environment. Some radio features and noise canceling accessories can also help reduce the background noise in your call. Microphone settings make a big difference. TP3 and TP9000 in DMR or P25 digital modes filters some background noise. TP9000 radios also have digital noise suppression. TP9500 and TP9600 have dual-mic active noise cancellation for best-in-class audio volume and quality that works in both analog and digital modes. Proper radio and accessory configuration is the most important factor for these noisy environments to match performance to your budget and situation.

#### OUTDOOR OPERATION?
If the radio is to be worn on a belt or pocket, wearing it higher is better for reception and audio. Consider using a shoulder mounted speaker microphone. Wired in-ear accessories can also help.

#### CONFIDENTIAL CALLS?
If you expect calls of a sensitive nature, then an in-ear speaker should be used. If you do not want people to know you are transmitting, then a discreet finger-worn PTT is useful.

#### HYGIENE ISSUE?
If staff are to wear in-ear speakers, avoid hygiene concerns by issuing personal speakers, rather than sharing.

#### WIRED OR WIRELESS?
Tait supports a range of Bluetooth® audio accessories. Bluetooth® pairing can be less reliable than wired PTT, or the PTT on the radio. Select the balance of convenience and reliability appropriate for your team.
Audio Accessories Overview

The Tait audio accessory system is anchored by the standard audio accessory connector, found on all of our portable radios. This gives you the freedom to select the right accessories for you. Only approved accessories can be used with Intrinsically Safe (IS) products. See Intrinsically Safe section for details.
Audio Accessories

Speaker Microphones

LIGHT DUTY
These speaker microphones offer the convenience of a light weight shoulder mount, while your portable radio is securely fastened to your belt, ideal for light duty roles.

LIGHT-WEIGHT

T03-00045-ERAA

Features:
- 3.5mm earpiece jack
- Cord approx. 50cm unstretched
- Rotatable lapel clip

For use with:
- TP9300, TP9400, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

STANDARD DUTY

This speaker microphone offers the convenience of a medium weight shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt.

TSM3 Speaker Mic Medium Weight

TSM3

T03-00045-NDCA

Features:
- 3.5mm ear piece jack
- Rugged, dust proof and water submersible (IP67 rated with connector jack sealed)
- Speaker: 1W
- Tait design water shedding grille and microphone
- Function button (programmable emergency button)
- Push to Talk button
- Cable length (extended) is 0.8m, diameter 4mm
- Compatible Earpieces:
  - T03-00086-0101 Earpiece In-ear
  - T03-00086-0201 Earpiece C-hook
  - T03-00086-0301 Earpiece D-ring

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

STANDARD DUTY

This speaker microphone offers a medium weight shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. With enhanced audio and ruggedness, well suited to harsh work environments.

TSM3e Speaker Mic Medium Weight

Features:
- 3.5mm ear piece jack
- Rugged, dust proof and water submersible (IP67 rated with connector jack sealed)
- Speaker: 2W
- Tait design water shedding grille and microphone
- Function button (programmable emergency button)
- Heavy duty cable
- Cable length (extended) is 1.5m, diameter 5mm
- Push to Talk button
- Compatible Earpieces:
  - T03-00086-0101 Earpiece In-ear
  - T03-00086-0201 Earpiece C-hook
  - T03-00086-0301 Earpiece D-ring

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

HEAVY DUTY
These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

**EVOLUTION**
Evolution 2.5mm Ear Piece Jack  
Evolution 3.5mm Ear Piece Jack  
T03-00045-JFAA  
T03-00045-JBAA

Features:
- Choice of 2.5mm or 3.5mm ear piece jack  
- Fully sealed housing to MIL-STD-810 specs  
- High/low volume control  
- Emergency button  
- PTT switch life: 1 million cycles  
- Heavy duty cable

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

**STORM**
Storm Speaker Mic  
T03-00045-KFAA

Features:
- 2.5mm ear piece jack  
- Large PTT with positive tactile feedback  
- Push-button high/low volume control below PTT  
- Emergency button  
- Compatible with a variety of radio models  
- Exceeds MIL-STD-810F spec, 40mph blowing rain  
- Immersion rated, fully sealed to IP68

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

HEAVY DUTY (CONTINUED)
These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

GENESIS

Features:
• Fully sealed against water and dust penetration to IP68
• Removable front grill for easy cleaning and maintenance
• Large snap-action PTT suitable for use with gloves
• Emergency button with large notch for easier actuation
• Loud speaker mic suitable for noisy environments
• Heavy duty cable

For use with:
• TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

**Speaker Microphones**

**WIRELESS**

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, such as push-to-talk, phone calls, and emergency alerts, while your portable radio is securely fastened to your belt.

In covert mode LED indications are suppressed and audio annunciations are selectively muted. Support for an audio headset is provided by a standard 3.5mm jack, which mutes the speaker when used.

This accessory incorporates a number of rugged design features for mission critical applications, including emergency button, auxiliary buttons, covert mode and high quality audio, making it well suited to rugged and noisy work environments.

**AINA PTT VOICE RESPONDER**

*Features:*
- Easy to use
  - Simple Bluetooth® pairing
  - Two PTT buttons to simplify communication to two main channels or contacts
  - Call-answer button
  - Volume control
  - 3.5mm standard audio jack for connection to a wide variety of earpieces and headsets
  - Battery life: ~24 hours
- High quality audio suitable for noisy environments
  - Sound pressure level of 105dB at 10cm
  - Wide-band audio
  - Noise suppression
  - Echo cancellation
  - Wind noise reduction
- Built for critical communications
  - Real-time PTT; short latency
  - Emergency button increases worker safety by allowing a worker in distress to notify dispatch about an emergency
  - Covert mode option
  - Rugged IP67 dust and water resistant
  - MIL-STD 810G 2 meter drop test and environmental protection

*For use with:*
- TP9300, TP9400, TP9500, TP9600, TP3, Android and IOS smartphones with PTT applications

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**Aina PTT Voice Responder**

Ear Pieces for Speaker Mics

STANDARD DUTY EAR PIECES

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EAR TUBE IN-EAR**

**Features:**
- Commercial grade
- Soft rubber ear piece
- 2.5mm and 3.5mm connectors available
- Low profile, flexible, transparent acoustic tube
- Length: approx. 600mm (700mm stretched)
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

Not for use with Intrinsically Safe or Non-Incendive radios.

**EAR HOOK**

**Features:**
- Commercial grade
- Soft rubber ear piece
- 2.5mm and 3.5mm connectors available
- Discreet, unobtrusive acoustic tube
- Length: approx. 600mm (700-750mm stretched)
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Ear Pieces for Speaker Mics

STANDARD DUTY EAR PIECES (CONTINUED)

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EAR-BUD C-HOOK**

- **Features:**
  - Commercial grade
  - Soft rubber ear piece
  - Discreet, unobtrusive acoustic tube
  - Length: approx. 361mm
  - Designed to fit either the left or right ear

- **For use with:**
  - Speaker microphones with a 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**T03-00120-KAAE**

**EAR TUBE EAR HOOK**

- **Features:**
  - Commercial grade
  - Soft rubber ear piece
  - 2.5mm and 3.5mm connectors available
  - Low profile and flexible acoustic tube
  - Length: approx. 600mm (700mm stretched)
  - Designed to fit either the left or right ear

- **For use with:**
  - Speaker microphones with a 2.5mm or 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EARPIECE C-HOOK**

Earpiece Ear-Bud C-hook Black 3.5mm-RA-Jack 0.3m-lead  T03-00086-0201

**Features:**
- Adjustable full rotating earbud that fits both ears
- Rubberized C-shaped loop
- Available in black color
- 3.5mm right angle connector

**For use with:**
- TSM3 and TSM3e only

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**EARPIECE D-RING**

Earpiece On-Ear D-ring Black 3.5mm-RA-Jack 0.3m-lead  T03-00086-0301

**Features:**
- Detachable design that fits both ears
- Rubberized D-shaped loop
- Available in black color
- 3.5mm right angle connector

**For use with:**
- TSM3 and TSM3e only

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Headsets

Headsets offer the best noise reduction for receiving calls in high noise environments.

HEAVY DUTY OVER HEAD

Heavy Duty Over Head Headset | T03-00046-FAAA

Features:
• Rotating boom for left or right positioning
• Flexible, noise canceling boom microphone with replaceable windscreen
• In-line PTT in cable
• Comfortable, cloth-covered ear seals

For use with:
• TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

HEAVY DUTY BEHIND HEAD

Heavy Duty Behind Head Headset | T03-00046-FEAA

Features:
• Designed for use with a helmet or hat
• Discreet c-style headband for comfortable, stable fit
• In-line PTT
• Flexible, noise canceling boom microphone with replaceable windscreen
• Improved ear seal design delivers advanced noise reduction and superior comfort

For use with:
• TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Headsets (continued)

**HURRICANE BEHIND HEAD**

- Lightweight and comfortable design
- Behind the head style headset with dual ear inserts
- Noise canceling boom microphone with replaceable windscreen
- Noise reducing Ear Inserts offer a certified NRR of 29dB

*Features:

For use with:

- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Note: The Hurricane Behind Head is supplied with two sets of ear insert options: clear ear tips and foam earplugs.

*Not for use with Intrinsically Safe or Non-Incendive radios.

**LIGHT WEIGHT BEHIND HEAD**

- Flexible boom microphone
- Finger mount PTT
- Lapel clip

*Features:

For use with:

- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Surveillance Kit

Surveillance kits offer a discreet device that can be worn under clothing for covert communications.

**2-WIRE SURVEILLANCE KIT**

- **Features:**
  - Professional grade
  - Separate wires for ear piece and Microphone/PTT button with lapel clip.

- **For use with:**
  - TP9300, TP9400, TP9500, TP9600, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

**COVERT KIT EARTUBE-IN-EAR**

- **Features:**
  - Commercial grade
  - Transparent in-ear piece
  - Microphone with lapel clip
  - PTT on microphone
  - Cord length approx 1000mm

- **For use with:**
  - TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Surveillance Kit (continued)

**COVERT KIT EAR HANGER LAPEL MIC**

Covert Kit Ear Hanger Lapel Mic with PTT  
T03-00047-CBAA

**Features:**
- Commercial grade
- Clip midway along cable can be connected to clothing
- Ear piece clips over the ear (wire from behind)
- Length: radio to PTT/clip 900mm
- Length: PTT/clip to earpiece 600mm

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**WIRED FINGER PTT**

Wired Finger PTT  
T03-00053-0101

**Features:**
- Commercial grade
- Finger mounted PTT button
- May be used in conjunction with Bluetooth® audio accessories
- Designed so the wire can be fitted through clothing - from the radio up to shoulder and then down sleeve to the hand
- Cable length: approx. 1100mm (1500mm stretched)

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Replacement Kits

Soft plastic parts may require occasional replacement. Keep spares to minimize downtime.

FLEXIBLE OPEN EAR INSERT - LEFT EAR

For use with:
- T952-051
- TPA-AA-213
- TPA-AA-214
- TPA-AA-221
- T03-00046-CEAA
- T03-00046-GEAA
- T03-00047-AAAA

- TPA-AA-215 (left ear – small)
- TPA-AA-216 (left ear – medium)
- TPA-AA-217 (left ear – large)
- TPA-AA-218 (right ear – small)
- TPA-AA-219 (right ear – medium)
- TPA-AA-220 (right ear – large)

EARPIECE QUICK DISCONNECT ACOUSTIC TUBE

For use with:
- T952-051
- TPA-AA-213
- TPA-AA-221

- TPA-AA-214 (set of five)
Antennas for Tait Portables

TP8000/TP9000 Antennas

Antennas for frequencies supported by Tait portable radios.

Tip: The human body can impede radio signal. A radio worn on the belt will have shorter range than a hand held one.

INTRINSICALLY SAFE ACCESSORIES

Electronic equipment can be an ignition source, hazardous in an explosive atmospheric environment

Intrinsic Safety is one method of meeting safety standards in these environments. Detailed information about Intrinsically Safe standards can be found here: www.taitradio.com/solutions/intrinsically-safe

Tait offers Intrinsically Safe (IS) portable radios with limited electrical and thermal output for use in hazardous locations. Only Tait approved IS accessories can be used with Tait IS portable radios, as listed in this catalog.

The IS rating of the radio, battery, and accessories must be reviewed to ensure a safe IS radio system. IS ratings must be “matched”, and the lowest approval level determines the overall IS radio system approval. If non-IS accessories are used with IS radios, the radio system is not Intrinsically Safe

Equipment labels clearly identify the item’s ratings.

Tait IS radios and accessories are certified to meet a number of compliance standards: IECEx (International), ATEX (Europe), AEx (USA), CaEx (Canada), INMETRO (Brazil). Each accessory in this catalog states which compliances apply.
Intrinsically Safe Batteries

Tait portable radio Intrinsically Safe batteries

Intrinsically Safe batteries feature an anti-static surface pattern to reduce static electricity.

GENERAL TAIT BATTERY FEATURES
- Premium quality Li-Ion cells
- Over charge protection
- Over-current protection
- Thermal protection
- Over-discharge protection

BUILT TO EXCEED AND SURVIVE TAIT TOUGH AND MIL-STD810G DROP TESTS
- Strong attachment
- Rubberized corners

For use with:
TP9361 and TP9461 Intrinsically Safe radios

Use only Gas Group IIC batteries with Gas Group IIC radios
Use only Gas Group IIA batteries with Gas Group IIA radios
Intrinsically Safe Chargers

TP9000 IS Desktop Chargers

These Desktop Chargers are available as either a Single Charger or a convenient 6-Way Multi Charger. Choose the appropriate plug pack or cable for your region.

Chargers for IS batteries are marked with an IS circle logo. You must use these chargers with an IS battery, as their internal circuitry provides additional protection for the IS circuitry in the battery and radio.

THE TP9000 IS DESKTOP CHARGERS ARE COMPATIBLE WITH:

- TP9361 IS
- TP9461 IS
- All Intrinsically Safe Batteries for the TP9361 IS and TP9461 IS

### SINGLE CHARGER

- No Plug Pack IECEx/ATEX
- Australia/New Zealand Plug Pack IECEx/ATEX
- United Kingdom Plug Pack IECEx/ATEX
- Europe Plug Pack IECEx/ATEX
- No Plug Pack AEx/CaEx
- US/Canada Plug Pack AEx/CaEx
- No Plug Pack INMETRO
- Brazil Plug Pack INMETRO

Options for no plug pack, or bundled with a plug pack for the region of your choice.

- Desktop charger
- Charge radio with battery, or battery only

### MULTI CHARGER (6-WAY)

- Australia/New Zealand Mains Cable IECEx/ATEX
- United Kingdom Mains Cable IECEx/ATEX
- Europe Mains Cable IECEx/ATEX
- No Mains Cable AEx/CaEx
- US/Canada Mains Cable AEx/CaEx
- No Mains Cable INMETRO
- Brazil Mains Cable INMETRO

Options for no mains cable, or bundled with a mains cable for the region of your choice.

- Desktop charger
- Charge up to six radios with batteries, or batteries only
Intrinsically Safe Chargers

TP9000 IS Vehicle Chargers

Our unique in-vehicle charger provides charging even in the toughest vehicle environments, ensuring batteries are optimally charged to keep users connected over long shifts. The vehicle charger can charge batteries connected to the radio, and also on their own.

This rugged in-vehicle radio charger securely holds the radio, exceeding crash-test requirements, minimizing in-vehicle hazards.

Chargers for IS batteries are marked with an IS circle logo. You must use these chargers with an IS battery, as their internal circuitry provides additional protection for the IS circuitry in the battery and radio.

THE TP9000 VEHICLE CHARGER IS COMPATIBLE WITH:

- TP9361 IS
- TP9461 IS

CHARGING SOLUTION FOR PORTABLE RADIOS

Charging portable radios within a vehicle is a vital aspect of everyday operation. Unforeseen events require the flexibility to charge portables radios while on operation, so you are always prepared. The Vehicle Charger has been designed for tough conditions to assure reliable charging, and also keep the portable radio secure.

EFFICIENT CHARGING

The charger displays charging information consistent with the other Tait chargers. Battery faults, charging cycle and ready batteries are clearly indicated.

SUITABLE FOR MOUNTING IN VEHICLE

This charger is supplied with a power cable, but no fasteners, and can be mounted in a variety of different ways, including installation against a vertical surface. When properly fitted, the charging radio is safe and secure. The charger is compatible with RAM® Mounts RAM-202U “Round Plate with Ball” –please see the Vehicle Charger Installation Instructions for more info.

**Intrinsically Safe Carry Accessories**

Carry Cases provide a range of options to provide:

- Extra protection for your radio, minimizing damage wear and tear and prolonging the life of your investment
- Choice of options personal comfort and ease of use when carrying and using your radio.

Tait radios are Built Tait Tough to take the knocks – the Tait Belt Clip, and Optional Belt Clip adapter provide:

- A low cost alternative to carry your radio
- Secure attachment, quick release, and improved RF coverage with the belt clip adaptor
- Full visibility of your radio, e.g. your high visibility color, blue for IS, custom labeling etc
- Full tactile and ergonomic access to the radio operation

Carry cases and belt clip adapters are very important tools for improving coverage by pushing the antenna farther from the body as the body can block or absorb signals.

*(Note: belt clip & belt clip adaptor also applies to TP8100, TP9100, TP9461 and TP9361 IS radios)*

---

**BELT CLIP**

**Belt Clip 55mm**

- Tough carry accessory.
- Comes standard in every radio package.
- Not included with spare batteries.
- Strong attachment, easy to remove without tools.
- For use with: All TP8000/9000 radios

**Compliance:** IECEx, ATEX, AEx, CaEx, INMETRO

---

**BELT CLIP SWIVEL ADAPTOR**

**Belt Clip adaptor for 55mm belt clip**

- This adaptor provides secure, robust attachment of radio to your belt, allowing easy release for handheld operation. Avoiding interference with day-to-day tasks is critical for active staff.

- Unique, rugged accessory designed to last
- Allows the radio to securely swivel 15deg forwards and backwards from center, providing ergonomic but constrained movement for user comfort
- Provides low-cost, secure radio attachment
- Release mechanism allows for easy intentional release, but makes it extremely difficult for the radio to be unintentionally removed – perfect for public safety and security usage
- Improves radio range by angling the antenna away from the user's body

**REQUIRES:** TPA-CA-201

**Compliance:** IECEx, ATEX, AEx, CaEx, INMETRO
Intrinsically Safe Carry Accessories

IS Portable Radio Carry Cases

HEAVY DUTY LEATHER

- Keep your hands free and portable radio safe with a durable heavy leather case.
- Resilient and robust, the Heavy Duty Leather cases withstand the toughest conditions, allowing you to focus on the job.

IS leather carry cases are marked with an IS circle logo. The following carry cases have been approved for use with TP9300/TP9400 IS portable radios.

**IS CARRY CASE HEAVY DUTY LEATHER D-STUD BELT LOOP**
TP9361/9461 16 Key D-stud Belt Loop  
**Features:**
- Belt loop is approx 55mm
- D-Stud for secure flexible attachment and easy release
- LCD screen window is made from anti-static material and IS marking.

**Compliance:** IECEx, ATEX, AEx, CaEx, INMETRO

**IS CARRY CASE HEAVY DUTY LEATHER SPRING CLIP**
TP9361/9461 16 Key Spring Clip  
**Features:**
- Spring clip is approx 45mm
- LCD screen window is made from anti-static material and IS marking.

**Compliance:** IECEx, ATEX, AEx, CaEx, INMETRO

INTRINSICALLY SAFE AUDIO ACCESSORIES

The right audio accessories can help you do your job more safely and effectively

Whether your team operates in a particularly noisy environment, or has a need for covert communications, Tait offers a range of audio accessories to make sure voice calls get through loud and clear. Only Tait approved IS accessories can be used with Tait IS portable radios, as listed in this catalog.

The IS rating of the radio, battery, and accessories must be reviewed to ensure a safe IS radio system. IS ratings must be “matched”, and the lowest approval level determines the overall IS radio system approval. If non-IS accessories are used with IS radios, the radio system is not Intrinsically Safe. IS accessories must be approved for the compliance region they are to be used in, and must have the correct ratings for their operating environment.

An IS audio accessory is identified by either:

- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information
Intrinsically Safe Audio Accessories Overview

An IS audio accessory is identified by either:

- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

**Connection Types:**
- 9-Pin Side Port
- 2.5mm/3.5mm Jack
- Nexus Connector
Intrinsically Safe Audio Accessories

IS Speaker Microphone and Earphone

This speaker microphone offers a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

This earphone offers the option of discreet voice calls, and is great in environments where a loud speaker is inappropriate.

An IS audio accessory is identified by either:

- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

1. **EX STORM**

   **Ex Speaker Microphone Storm IP68 E-Button**
   2.5mm Jack
   
   **Features:**
   - 2.5mm ear piece jack
   - Large PTT with positive tactile feedback
   - Push-button high/low volume control below PTT
   - Emergency button
   - Compatible with a variety of radio models
   - Exceeds MIL-STD-810F spec, 40mph blowing rain
   - Immersion rated, fully sealed to IP68

   **For use with:**
   - TP9361, TP9461

   **Compliance:** IECEx, ATEX, AEx, CaEx

2. **EARPHONE IN-EAR**

   **Ex Earphone In-Ear 2.5mm**

   **Features:**
   - Professional grade
   - Discreet, flexible, transparent acoustic tube
   - Designed to fit either the left or right ear
   - Lightweight ear piece
   - Quick disconnect earphone adapter for easy acoustic tube replacement

   **For use with:**
   - Ex Storm

   **Compliance:** IECEx, ATEX, AEx, CaEx
Ex Headset Heavy Duty Over Head Headset  T03-22008-BAAA

**Features:**
- Rotating boom for left or right positioning
- Flexible, noise cancelling boom microphone with replaceable windscreen
- In-line PTT in cable
- Comfortable, cloth-covered ear seals

**For use with:**
- TP9361, TP9461

**Compliance:** IECEx, ATEX, AEx, CaEx

---

Ex Headset Heavy Duty Behind Head Headset  T03-22008-BABA

**Features:**
- Designed for use with a helmet or hat
- Discreet c-style headband for comfortable, stable fit
- In-line PTT
- Flexible, noise cancelling boom microphone with replaceable windscreen
- Improved ear seal design delivers advanced noise reduction and superior comfort

**For use with:**
- TP9361, TP9461

**Compliance:** IECEx, ATEX, AEx, CaEx

---

Intrinsically Safe Audio Accessories

**IS Headsets – Direct Radio Connection**

Headsets offer the best noise reduction for receiving calls in high noise environments.

An IS audio accessory is identified by either:
- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

These headsets connect directly to your radio via the 9-pin side port.
Intrinsically Safe Audio Accessories

IECEx/ATEX IS Speaker Microphones

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

An IS audio accessory is identified by either:

- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

Features:

- The C-C550 is a remote speaker microphone, manufactured by Savox, and interfaces to a range of Savox Intrinsically Safe headsets
- The C-C550 enables effective remote communications with the radio positioned under clothing and when wearing heavy gloves.
- Remote activation of the radio's emergency button provides an additional safety feature
- Rugged, dust proof and water submersible
- Two PTTs – adapts to different use scenarios as a handheld RSM or as a PTT on the chest
- Excellent tactile feel and operation even with thick gloves
- Exceptional speaker audio performance in noisy and harsh environments

For use with:

- TP9361, TP9461

Compliance: IECEx, ATEX
**Intrinsically Safe Audio Accessories**

**IS Headsets for C-C550**

These are specialist headsets designed for particular applications such as helmets and earmuffs.

An IS audio accessory is identified by either:

- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

These headsets are only for use with the C-C550 Ex Speaker Mic (T03-22008-AACA).

---

**EX SKULL MICROPHONE SAVOX**

**Features:**
- Mounts in almost any type of helmets without tools
- Speech picked up through bone vibration on skull
- Compatible with breathing mask units
- Durable and light weight
- Protected from rough use by the helmet
- Ready for use when helmet is worn
- Minimizes transmission of background noise

**For use with:**
C-C550 Ex Speaker Mic

**Compliance:**
IECEEx, ATEX

---

**EX SKULL MICROPHONE SAVOX HC-2**

**Features:**
- Similar to the HC-1 except that it has two speakers, for added audio performance in noisy situations

**For use with:**
C-C550 Ex Speaker Mic

**Compliance:**
IECEEx, ATEX
Intrinsically Safe Audio Accessories

IS Headsets for C-C550

These are specialist headsets designed for particular applications such as helmets and earmuffs.

An IS audio accessory is identified by either:
- An IS circle logo on the audio accessory
- A label on the audio accessory, showing IS information

These headsets are only for use with the C-C550 Ex Speaker Mic (T03-22008-AACA).

EX HEADSET SAVOX HC-E

Ex Headset Savox HC-E 4 Pole ATEX/IECEx  

Features:
- Lightweight, helmet mounted headset with integrated electric mic
- Voice sensitive electric microphone integrated within the speaker housing
- Easily mounts into most types of helmets
- Affordable helmet headset option
- 4-pole connector
- Robust and easy to use

## Intrinsically Safe Antennas for Tait Portables

**TP8000/TP9000 Antennas**

Antennae for frequencies supported by Tait portable radios.

Tip: The human body can impede radio signal. A radio worn on the belt will have shorter range than a hand held one.
