OPTIONS & ACCESSORIES

The right choice of accessories can optimize and complete the communications experience

A Tait radio is not a solitary product, it supports a range of great accessories. We recommend tailoring each user's experience to suit their industry and role. Select the battery that's the right balance of weight versus shift-life. Select a carry accessory that makes the radio easier to wear, and keeps the radio protected and in good working order.

The right audio accessories, like speaker mics and ear-pieces, can make team communication much more effective. Optimizing audio performance means calls can be heard first time during normal operations and emergencies, keeping channels clear for other users.
Batteries

TP8000/9000 Portable Radio Batteries

Select the performance and capacity options that are right for your organization's needs.

GENERAL TAIT BATTERY FEATURES
- Premium quality Li-Ion cells
- Over charge protection
- Over-current protection
- Thermal protection
- Over-discharge protection

BUILT TO EXCEED AND SURVIVE TAIT TOUGH AND MIL-STD810G DROP TESTS
- Strong attachment
- Rubberized corners

---

**BATTERY**

| Slimline Li-Ion 1880mAh | T03-00011-AAAA |
| Performance Li-Ion 2400mAh | T03-00011-CAAA |

**For use with:**
TP8100, TP9300, TP9400, TP9500, TP9600

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**BATTERY WITH BELT CLIP**

| Slimline Li-Ion 1880mAh c/w Belt Clip | T03-00011-ABAA |
| Performance Li-Ion 2400mAh c/w Belt Clip | T03-00011-CAAA |

**For use with:**
TP8100, TP9300, TP9400, TP9500, TP9600

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Batteries

TP3 Portable Radio Batteries

For use with the TP3000 range only.

**TP3 SPARE BATTERY**

TP3000 Battery Pack 2000mAH

**Features**
- Chemistry: Lithium Ion
- Capacity: 2000mAH
- Built in over current protection, temperature sensing, charge contact isolation
- Up to two extra batteries can be supplied in each radio carton

**For use with:**
TP3000

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Chargers

TP9000 Desktop Chargers

Choose the appropriate plug pack for your region. These Desktop Chargers are available as either a Single Charger or a convenient 6-Way Multi Charger.

ALL TP9000 SERIES DESKTOP CHARGERS ARE COMPATIBLE WITH:

- TP8100
- TP9300/TP9400
- TP9500/TP9600

SINGLE CHARGER FAST LI-ION

Options for no mains cable, or bundled with a mains cable for the region of your choice.

- North America Mains Cable is not for sale in California
- Charge up to six radios with batteries, or batteries only.
- For use with either Slimline 1880mAh or Performance 2400mAh battery.

\*Not for use with Intrinsically Safe or Non-Incendive radios.\*
Chargers

Transportable Chargers

Rapid field-deployable communication is essential to emergency responders. Scalable communications equipment such as the Transportable Multi-charger extends your normal field of operation and enhances flexibility.

The TA3004 Transportable Multi-charger can be powered by 110-240VAC mains, a vehicle accessories socket or a stand-alone 10-30VDC power source, like a battery, making it extremely versatile.

The Transportable Multi-charge's rugged pelican case with its lid up can charge a combination of portable radios and batteries at a time, both Slimline 1880 mAh Lithium Ion (Li-ion) or Performance 2400 mAh Li-ion batteries can be used.

Note: Charging can only be carried out with the lid open. The unit is not waterproof with the lid open.

ALL TP9000 SERIES TRANSPORTABLE CHARGERS ARE COMPATIBLE WITH:

- TP8100
- TP9300/TP9400
- TP9500/9600

Features:

- Can charge a combination of up to six radios or batteries (either Slimline 1880mAh or Performance 2400mAh) simultaneously
- Easily deployed rugged 1520 Pelican case with aluminum internal chassis
- Can store up to six TP8000/9000 radios (with batteries and belt clips fitted), and six spare batteries
- Displays a red LED while battery is charging, green LED when battery is fully charged, and amber LED if there is a charging fault or error
- Standard IEC AC socket connected to an internal switch-mode power supply
- 110-250VAC input, fused and switched
- External DC power input, 10-30VDC at 13A
- DC power cord with a vehicle accessory plug to a 4-pin Amphenol plug, switched and fused
- DC power cord with crocodile clips to a 4-pin Amphenol plug for use on any 10-30VDC 13A power source
- Country-specific IEC AC power cords are available.

Size: L 182mm, W 124mm, H 58mm
Weight: approx. 12kg with 6 radios and 12 batteries fitted
Typical Charge Time: 1880mAh Li-ion 1.5-2hrs, 2400mAh Li-ion 2-2.5hrs
Maximum charge time: 1880mAh Li-ion 2.5hrs, 2400mAh Li-ion 3hrs

Aus/NZ Compliance only. Contact your Tait representative for availability and pricing in other regions

Not for use with Intrinsically Safe or Non-Incendive radios.
## Chargers

**TP9000 Vehicle Chargers**

Our unique in-vehicle charger provides secure charging even with the roughest treatment, ensuring batteries are optimally charged to keep users connected over long shifts. The vehicle charger can charge batteries connected to the radio, and also on their own.

This rugged in-vehicle portable radio charger is secure, even in crashes, to reduce in-vehicle hazards.

**THE TP9000 VEHICLE CHARGER IS COMPATIBLE WITH:**
- TP8100
- TP9300/TP9400
- TP9500/TP9600

### VEHICLE CHARGER

**CHARGING SOLUTION FOR PORTABLE RADIOS**

Charging portable radios within a vehicle is a vital aspect of everyday operation. Unforeseen events require the flexibility to charge portables radios while on operation, so you are always prepared. The Vehicle Charger has been designed for tough conditions to assure reliable charging, and also keep the portable radio secure.

**EFFICIENT CHARGING**

The charger displays charging information consistent with the other Tait chargers. Battery faults, charging cycle and ready batteries are clearly indicated.

**SUITABLE FOR MOUNTING IN VEHICLE**

This charger is supplied with a power cable, but no fasteners, and can be mounted in a variety of different ways, including installation against a vertical surface. When properly fitted, the charging radio is safe and secure.

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Chargers

**TP9000 Vehicle Chargers (continued)**

Our unique in-vehicle charger provides secure charging even with the roughest treatment, ensuring there is always a fresh battery available to keep users connected over long shifts.

This rugged in-vehicle charger is secure, even in crashes, to reduce in-vehicle hazards.

**THE TP9000 VEHICLE CHARGER FOR BATTERIES IS COMPATIBLE WITH:**
- T03-00011-AAAA Slimline Li-Ion 1880mAh battery
- T03-00011-CAAA Performance Li-Ion 2400mAh battery

**VEHICLE CHARGER FOR BATTERY ONLY**

**SECURE CHARGING SOLUTION FOR SPARE BATTERIES**

- **T03-00014-AAAA**

The ability to charge spare batteries during operation is vital. You never know when shifts will be extended due to unforeseen events, and having a fully charged extra battery ready provides peace of mind when in critical missions.

The Battery Only Vehicle Charger has been designed for tough conditions to assure continuous charging.

**EFFICIENT CHARGING**

The charger displays charging information consistent with other Tait chargers. Battery faults, charging cycle and ready batteries are clearly visible.

**SUITSABLE FOR MOUNTING IN VEHICLE**

The battery charger is very simple to use with positive audible feedback of insertion. Two rubber studs help ensure robust attachment in a moving vehicle.

Four mounting screws are available for firm and reliable contact with the mounting surface. The battery is easily accessible for urgent need by pressing the top clip.

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Chargers

TP3 Chargers

Desktop Chargers are available as a Single Charger that offers the flexibility to use the plug pack for the region of your choice, or a convenient 6-Way Multi Charger.

COMPATIBILITY

» TP3000

SINGLE CHARGER WITH PLUG PACK

Single Charger with Plug Pack

- Triple LED Indication
- Temperature, voltage, battery type detection
- Over-charge timeout
- Multi-national plug pack - plugs for NorAm, UK, EU, ANZ, BR all supplied
- Plug pack rated at 12V, 2A

Not for use with Intrinsically Safe or Non-Incendive radios.

MULTI CHARGER (6-WAY)

6-Way Charger with Plug Pack

6-Way Charger Spare Plug Pack

Australia/New Zealand Mains Cable

United Kingdom Mains Cable

Europe Mains Cable

North America Mains Cable

Brazil Mains Cable

- Specifically for TP3300 radios
- Supplied with a plug pack (6A, 12V), but spare plug packs are available
- IEC mains cables are sold separately to the 6-Way Charger

Not for use with Intrinsically Safe or Non-Incendive radios.
Carry Accessories

Carry Cases provide a range of options to provide:

- Extra protection for your radio, minimizing damage wear and tear and prolonging the life of your investment
- Choice of options personal comfort and ease of use when carrying and using your radio.

Tait radios are Built Tait Tough to take the knocks – the Tait Belt Clip, and Optional Belt Clip adapter provide:

- A low cost alternative to carry your radio
- Secure attachment with the belt clip adapter
- Full visibility of your radio, e.g. your high visibility color, blue for IS, custom labeling etc
- Full tactile and ergonomic access to the radio operation

Carry cases and belt clip adapters are very important tools for improving coverage by pushing the antenna farther from the body as the body can block or absorb signals.

(Note: belt clip & belt clip adaptor also applies to TP8100, TP9100, TP9461 and TP9361 IS radios)

AUDIO ACCESSORIES

The right audio accessories can help you do your job more safely and effectively

Whether your team operates in a particularly noisy environment, or has a need for covert communications, Tait offers a range of audio accessories to make sure voice calls get through loud and clear.
Audio Accessories for Tait Portables

Smart audio accessory selection plays an important role in worker safety and efficiency.

Tait portable radios share a common accessory connector, so audio accessories are generally compatible between models. Intrinsically Safe radios offer an extra level of electrical and thermal safety, so IS radios require specific accessories.

Tait recommends the use of Tait TDMA audio accessories with radios operating in TDMA modes. Tait TDMA audio accessories are tested to function in TDMA, and have “TDMA” molded in the radio connector. TDMA technology is used in DMR and P25 Phase 2. Visit www.taitradioacademy.com to learn more about TDMA technology.

### SELECTING THE APPROPRIATE AUDIO ACCESSORIES

**NOISY ENVIRONMENT?**
When there's a lot of noise around you, one option is to just turn up the volume on your radio. This is not always practical, especially if the noise is intermittent or you're moving between areas of differing noise. Earpieces or noise canceling headsets can help you hear better amid loud noises. Your team also needs to be able to hear you when you're talking in a noisy environment. Some radio features and noise canceling accessories can also help reduce the background noise in your call. Microphone settings make a big difference. TP3 and TP9000 in DMR or P25 digital modes filters some background noise. TP9000 radios also have digital noise suppression. TP9500 and TP9600 have dual-mic active noise cancellation for best-in-class audio volume and quality that works in both analog and digital modes. Proper radio and accessory configuration is the most important factor for these noisy environments to match performance to your budget and situation.

**OUTDOOR OPERATION?**
If the radio is to be worn on a belt or pocket, wearing it higher is better for reception and audio. Consider using a shoulder mounted speaker microphone. Wired in-ear accessories can also help.

**CONFIDENTIAL CALLS?**
If you expect calls of a sensitive nature, then an in-ear speaker should be used. If you do not want people to know you are transmitting, then a discreet finger-worn PTT is useful.

**HYGIENE ISSUE?**
If staff are to wear in-ear speakers, avoid hygiene concerns by issuing personal speakers, rather than sharing.

**WIRED OR WIRELESS?**
Tait supports a range of Bluetooth® audio accessories. Bluetooth® pairing can be less reliable than wired PTT, or the PTT on the radio. Select the balance of convenience and reliability appropriate for your team.
Audio Accessories Overview

The Tait audio accessory system is anchored by the standard audio accessory connector, found on all of our portable radios. This gives you the freedom to select the right accessories for you. Only approved accessories can be used with Intrinsically Safe (IS) products. See Intrinsically Safe section for details.
Audio Accessories

Speaker Microphones

**LIGHT DUTY**

These speaker microphones offer the convenience of a light weight shoulder mount, while your portable radio is securely fastened to your belt, ideal for light duty roles.

![Light-Weight Speaker Mic](image)

**Features:**
- 3.5mm earpiece jack
- Cord approx. 50cm unstretched
- Rotatable lapel clip

**For use with:**
- TP9300, TP9400, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

**LIGHT-WEIGHT**

**Speaker Mic Light-Weight**

T03-00045-ERAA

**MEDIUM-WEIGHT**

**Speaker Mic Medium Weight**

T03-00045-FRAA

**Features:**
- 3.5mm earpiece jack
- Cord approx. 50cm unstretched
- Rotatable lapel clip

**For use with:**
- TP9300, TP9400, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

RUGGED
These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

**EVOLUTION**

- Evolution 2.5mm Ear Piece Jack
- Evolution 3.5mm Ear Piece Jack

**Features:**
- Choice of 2.5mm or 3.5mm ear piece jack
- Fully sealed housing to MIL-STD-810 specs
- High/low volume control
- Emergency button
- PTT switch life: 1 million cycles
- Heavy duty cable

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**STORM**

- Storm Speaker Mic

**Features:**
- 2.5mm ear piece jack
- Large PTT with positive tactile feedback
- Push-button high/low volume control below PTT
- Emergency button
- Compatible with a variety of radio models
- Exceeds MIL-STD-810F spec, 40mph blowing rain
- Immersion rated, fully sealed to IP68

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Speaker Microphones

RUGGED (CONTINUED)

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

Genesis Speaker Mic

Features:
- Fully sealed against water and dust penetration to IP68
- Removable front grill for easy cleaning and maintenance
- Large snap-action PTT suitable for use with gloves
- Emergency button with large notch for easier actuation
- Loud speaker mic suitable for noisy environments
- Heavy duty cable

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Speaker Microphones

RUGGED WIRELESS

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, such as push-to-talk, phone calls, and emergency alerts, while your portable radio is securely fastened to your belt.

In covert mode LED indications are suppressed and audio announcements are selectively muted. Support for an audio headset is provided by a standard 3.5mm jack, which mutes the speaker when used.

This accessory incorporates a number of rugged design features for mission critical applications, including emergency button, auxiliary buttons, covert mode and high quality audio, making it well suited to rugged and noisy work environments.

AINA PTT VOICE RESPONDER

Features:
• Easy to use
  - Simple Bluetooth® pairing
  - Two PTT buttons to simplify communication to two main channels or contacts
  - Call-answer button
  - Volume control
  - 3.5mm standard audio jack for connection to a wide variety of earpieces and headsets
  - Battery life: ~24 hours
• High quality audio suitable for noisy environments
  - Sound pressure level of 105dB at 10cm
  - Wide-band audio
  - Noise suppression
  - Echo cancellation
  - Wind noise reduction
• Built for critical communications
  - Real-time PTT: short latency
  - Emergency button increases worker safety by allowing a worker in distress to notify dispatch about an emergency
  - Covert mode option
  - Rugged IP67 dust and water resistant
  - MIL-STD 810G 2 meter drop test and environmental protection

For use with:
• TP9300, TP9400, TP9500, TP9600, Android and iOS smartphones with PTT applications

Not for use with Intrinsically Safe or Non-Incendive radios.

SAVOX BTR-155

Savox BTR-155 Wireless Remote Speaker  TT0012-0002

Features:
• Easy to use
  - Simple wireless pairing
  - Ergonomic with large buttons for use with gloves
  - Full duplex call functionality (phone calls only) and one-to-many push-to-talk capability
  - Volume control
  - 3.5mm standard audio jack for connection to a wide variety of earpieces and headsets
  - Battery life: up to 30 hours talk time, and up to 240 hours standby time
• Lightweight yet rugged
  - IP55 dust and water resistant
  - Drop test tolerance to 1.5m

For use with:
• TP9300, TP9400, TP9500, TP9600, Sonim XP8 smart phones with the Tait TeamPTT application.

Not for use with Intrinsically Safe or Non-Incendive radios.

Ear Pieces for Speaker Mics

PROFESSIONAL GRADE EAR PIECES

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

---

**EARPHONE IN-EAR**

- **Features:**
  - Professional grade
  - Discreet, flexible, transparent acoustic tube
  - Designed to fit either the left or right ear
  - Lightweight ear piece
  - Quick disconnect earphone adapter for easy acoustic tube replacement

- **For use with:**
  - Speaker microphones with a 2.5mm jack (e.g. Evolution and Storm models)

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**EAR HANGER**

- **Features:**
  - Professional grade
  - Soft rubber ear loop with speaker
  - Rotational clip to fit either the left or right ear
  - Lightweight ear piece

- **For use with:**
  - Speaker microphones with a 2.5mm jack (e.g. Evolution and Storm models)

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Ear Pieces for Speaker Mics

COMMERCIAL GRADE EAR PIECES

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EAR TUBE IN-EAR**

Ear tube In-Ear 2.5mm Connector [T03-00120-AAAD]
Ear tube In-Ear 3.5mm Connector [T03-00120-AAAE]

**Features:**
- Commercial grade
- Soft rubber ear piece
- 2.5mm and 3.5mm connectors available
- Low profile, flexible, transparent acoustic tube
- Length: approx. 600mm (700mm stretched)
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**EAR HOOK**

Ear tube Ear Hook 2.5mm Connector [T03-00120-BAAD]
Ear tube Ear Hook 3.5mm Connector [T03-00120-BAAE]

**Features:**
- Commercial grade
- Soft rubber ear piece
- 2.5mm and 3.5mm connectors available
- Discreet, unobtrusive acoustic tube
- Length: approx. 600mm (700-750mm stretched)
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

COMMERCIAL GRADE EAR PIECES (CONTINUED)

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EAR-BUD C-HOOK**

- Ear-bud C-hook Right Angle Jack  
  T03-00120-KAAE
- Ear-bud C-hook Straight Jack  
  T03-00120-KAAJ

**Features:**
- Commercial grade
- Soft rubber ear piece
- 3.5mm right angle and straight connectors available
- Discreet, unobtrusive acoustic tube
- Length: approx. 361mm
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*

**EAR TUBE EAR HOOK**

- Ear tube Ear Hook 2.5mm Connector  
  T03-00120-FAAD
- Ear tube Ear Hook 3.5mm Connector  
  T03-00120-FAAE

**Features:**
- Commercial grade
- Soft rubber ear piece
- 2.5mm and 3.5mm connectors available
- Low profile and flexible acoustic tube
- Length: approx. 600mm (700mm stretched)
- Designed to fit either the left or right ear

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

*Not for use with Intrinsically Safe or Non-Incendive radios.*

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

**EARPHONE TRANSPARENT D-RING**

- Earphone Transparent D-Ring 2.5mm Connector [T03-00120-HAAD]
- Earphone Transparent D-Ring 3.5mm Connector [T03-00120-HAAE]

**Features:**
- Commercial grade
- Soft rubber ear piece designed to fit either the left or right ear
- 2.5mm and 3.5mm connectors available
- Low profile, flexible, transparent acoustic tube
- High volume

**For use with:**
- Speaker microphones with a 2.5mm or 3.5mm jack as specified

_Not for use with Intrinsically Safe or Non-Incendive radios._

**EARPIECE BLACK D-RING**

- Earpiece D-Ring Black Right Angle Jack [T03-00120-LAAE]
- Earpiece D-Ring Black Straight Jack [T03-00120-LAAJ]

**Features:**
- Commercial grade
- Soft rubber ear piece designed to fit either the left or right ear
- 3.5mm right angle and straight connectors available
- Low profile, flexible, black acoustic tube
- Length: approx 455mm
- High volume

**For use with:**
- Speaker microphones with a 3.5mm jack as specified

_Not for use with Intrinsically Safe or Non-Incendive radios._
Audio Accessories

Headsets

Headsets offer the best noise reduction for receiving calls in high noise environments.

HEAVY DUTY OVER HEAD

Heavy Duty Over Head Headset

Features:
- Rotating boom for left or right positioning
- Flexible, noise canceling boom microphone with replaceable windscreen
- In-line PTT in cable
- Comfortable, cloth-covered ear seals

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

HEAVY DUTY BEHIND HEAD

Heavy Duty Behind Head Headset

Features:
- Designed for use with a helmet or hat
- Discreet c-style headband for comfortable, stable fit
- In-line PTT
- Flexible, noise canceling boom microphone with replaceable windscreen
- Improved ear seal design delivers advanced noise reduction and superior comfort

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

Headsets (continued)

**HURRICANE BEHIND HEAD**

**Hurricane Behind Head Headset**  
T03-00046-GEAA

**Features:**
- Lightweight and comfortable design
- Behind the head style headset with dual ear inserts
- Noise canceling boom microphone with replaceable windscreen
- Noise reducing Ear Inserts offer a certified NRR of 29dB

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Note: The Hurricane Behind Head is supplied with two sets of ear insert options: clear ear tips and foam earplugs.*

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**LIGHT WEIGHT BEHIND HEAD**

**Light Weight Behind Head Headset**  
T03-00046-EFAA

**Features:**
- Flexible boom microphone
- Finger mount PTT
- Lapel clip

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Surveillance Kit

Surveillance kits offer a discreet device that can be worn under clothing for covert communications.

2-WIRE SURVEILLANCE KIT

2-Wire Surveillance Kit

Features:
- Professional grade
- Separate wires for ear piece and Microphone/PTT button with lapel clip.

For use with:
- TP9300, TP9400, TP9500, TP9600, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

COVERT KIT EARTUBE-IN-EAR

Covert Kit Eartube-In-Ear, Mic with PTT

Features:
- Commercial grade
- Transparent in-ear piece
- Microphone with lapel clip
- PTT on microphone
- Cord length approx 1000mm

For use with:
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.
Audio Accessories

**Surveillance Kit (continued)**

---

**COVERT KIT EAR HANGER LAPEL MIC**

*Covert Kit Ear Hanger Lapel Mic with PTT*  
T03-00047-CBAA

**Features:**
- Commercial grade
- Clip midway along cable can be connected to clothing
- Ear piece clips over the ear (wire from behind)
- Length: radio to PTT/clip 900mm
- Length: PTT/clip to ear piece 600mm

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*

---

**WIRED FINGER PTT**

*Wired Finger PTT*  
T03-00053-0101

**Features:**
- Commercial grade
- Finger mounted PTT button
- May be used in conjunction with Bluetooth® audio accessories
- Designed so the wire can be fitted through clothing – from the radio up to shoulder and then down sleeve to the hand
- Cable length: approx. 1100mm (1500mm stretched)

**For use with:**
- TP9300, TP9400, TP9500, TP9600, TP3, TP8100

*Not for use with Intrinsically Safe or Non-Incendive radios.*
Audio Accessories

Surveillance Kit (continued)

WIRELESS
Covert, wireless PTT option.

SAVOX BT COM

Savox BT COM Wireless PTT

Features:
- Professional grade
- Wireless Push-to-Talk device
- Two large PTT buttons
- Volume control
- On/Off pairing button
- 3.5mm earpiece jack - supports headsets ranging from a simple earbud (included) to high-end hearing protection headsets
- Two modes of operation:
  - As a Push-to-talk button and microphone, using the microphone on the device and the supplied earpiece
  - As a Push-to-talk button, with an external microphone such as a commercial mobile phone's 3.5mm mic/earpiece accessory. Check audio levels and operation before use.
- IP55 dust and water resistant
- Talk time: up to 12hrs
- Standby time: Up to 120hrs
- Supplied earpiece cord is approx. 50cm unstretched
- Rotatable lapel clip

For use with:
- TP9300, TP9400, TP9500, TP9600

*Not for use with Intrinsically Safe or Non-Incendive radios.*

Antennas for Tait Portables

TP8000/TP9000 Antennas

Antennae for frequencies supported by Tait portable radios.

Tip: The human body can impede radio signal. A radio worn on the belt will have shorter range than a hand held one.
